Relay 1 fires :05-second local liners before network breaks. Relay 0 fires local breaks.
 :10-second rejoin bumpers follow all breaks.
 Hard outs at 30:00 and 58:50. All other breaks float.
 *The Live Read :60 at 16:00 may float to another position in the hour or it may be replaced by a recorded spot. In that case, the network break would be 2:00 minutes.
